## CORE VALUES

## OUR PROFILE

Sohar Advanced Chemicals LLC (SAC) is the largest manufacturer of Oil-field Minerals in Oman. Started in 2011, SAC is a 100% Omani SME company owned by Oman Oilfield Supply Centre LLC (OOSC) and Al Mashriq Trading & Investment (AMTI).

SAC has 2 manufacturing facilities at Sohar and Duqm, ensuring minimum lead time to customers in North and South Oman thereby providing valuable ICV (In-country value) to customers all over Oman. In addition to Oman, company exports to customers in GCC, East Africa and South Asia.

SAC manufactures Barite, Bentonite, Bauxite, Calcium Carbonate and Cat-litter products from both the facilities to meet the requirements of Oil & Gas, Civil construction, Piling, Earthing, Fertilizer and Chemical industries.

The company imports and stocks complimentary chemicals for various user industries including but not limited to Potassium chloride, Calcium Chloride, Mica, Sulphonated Asphalt, Soda Ash, Biocide, Defoamer and Lubricants.

Barite and Bentonite manufactured by SAC are API 13A certified since 2014 and the facility is Environment, Quality, and HSE compliant through ISO 14001:2015, ISO 9001:2015 and ISO 45001:2018 respectively.

## OUR INFRASTRUCTURE

SAC manufacturing plant at Sohar has an installed capacity of 200,000 Tons per annum of Mineral products in 6 production lines. This plant also has a blending unit to manufacture 1.5 million liters of Liquid chemicals.

SAC Duqm manufacturing plant has an installed capacity of 100,000 Tons per annum in a single production line.

Plants use closed-loop, fully automated SCADA based production control systems to ensure consistent quality, safety and environment friendly operations, meeting international standards.

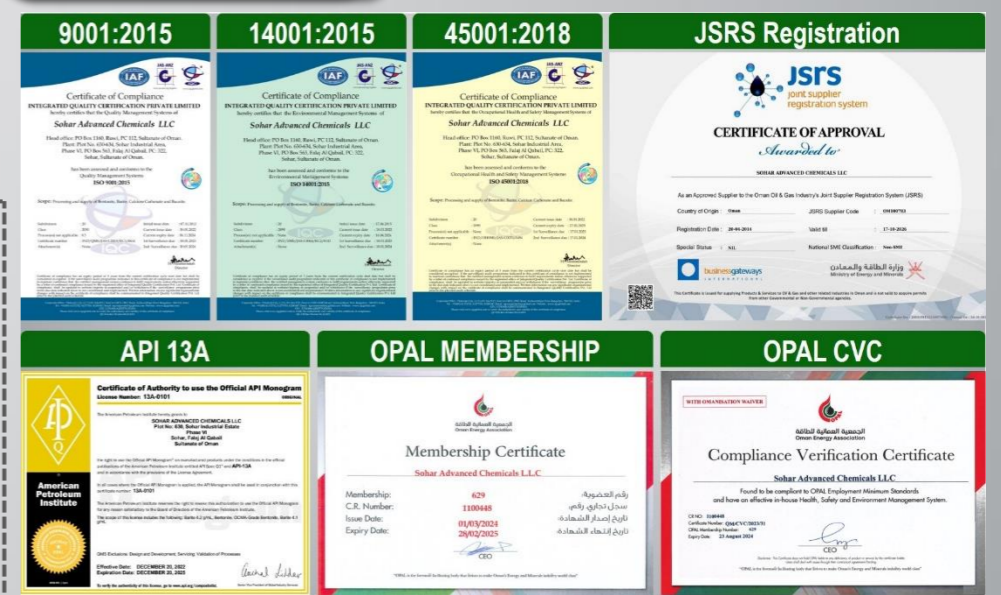

Plants are complemented with fully equipped Quality Assurance laboratory meeting API requirements and managed by highly qualified personnel.

Both facilities are located within 25 kms of Ports with connectivity to international shipping routes. Duqm plant is strategically located to have direct road connectivity to Oil & Gas concessions in North and South Oman.
